

Plug-In Storage Systems Cabinet Maintenance Schedule and Warranties

PSSI Zero Maintenance Cabinets

The Dock & Lock Storage Cabinets require **ZERO** scheduled maintenance. Our cabinets are designed for use in three-shift environments and have been overbuilt to ensure longevity of their operating life.

Warranties

- The cabinets have a general warranty of 10 years on all metal cabinet components, including locks, drawer slides, and wheels.
- The Cat. 6 cabling, Cat 6. couplers, A/C power cords, and A/C power strips have a 5-year warranty.
- The cooling system (fans, thermostats, toggle switches, power supplies) have a 70,000-hour (8-year) warranty from the fan manufacturer.*
- UPS Systems have their warranty directly from the manufacturer, and it is the responsibility of the user to register their products with them.

CA Cabinet and Component Warranties

- All above warranties apply for the Common Access Dock & Lock Series Cabinets.
- Any CA cabinet specific components (power supplies, circuit boards, single board computers, LCD screens, keypads, RFID readers, latches) will have a 3-year warranty.*
- The CA cabinet Latch, Thermostat, and Fan harnesses will have a 3-year warranty.*

Any item above containing a * requires that the broken component **MUST BE RETURNED** to PSSI before a replacement will be sent. After the item is received PSSI will promptly send out a replacement. This is to ensure that PSSI can return the defective item to the manufacturer and receive a replacement.

Plug-In Storage Systems is a veteran-owned small business dedicated to providing excellent customer support. We will be more than happy to provide our customers with the latest technology, additional locks, keys, hardware, at the customer's expense.
